Occupational Employment and Wages in Phoenix-Mesa-Scottsdale — May 2016

Workers in the Phoenix-Mesa-Scottsdale Metropolitan Statistical Area had an average (mean) hourly wage of \$22.85 in May 2016, about 4 percent below the nationwide average of \$23.86, according to the U.S. Bureau of Labor Statistics. Assistant Commissioner for Regional Operations Richard Holden noted that, after testing for statistical significance, wages in the local area were lower than their respective national averages in 13 of the 22 major occupational groups, including management; education, training, and library; and business and financial operations. One group had significantly higher wages than the respective national average: healthcare support.

When compared to the nationwide distribution, local employment was more highly concentrated in 6 of the 22 occupational groups, including office and administrative support; sales and related; and computer and mathematical. Conversely, nine groups had employment shares significantly below their national representation, including production; education, training, and library; and transportation and material moving. (See table A and box note at end of release.)

Table A. Occupational employment and wages by major occupational group, United States and the Phoenix-Mesa-Scottsdale Metropolitan Statistical Area, and measures of statistical significance, May 2016

Major occupational group	Percent of total	al employment	Mean hourly wage			
	United States	Phoenix	United States	Phoenix	Percent difference (1)	
Total, all occupations	100.0	100.0	\$23.86	\$22.85*	-4	
Management	5.1	5.8*	56.74	50.67*	-11	
Business and financial operations	5.2	5.6*	36.09	32.34*	-10	
Computer and mathematical	3.0	3.9*	42.25	39.03*	-8	
Architecture and engineering	1.8	1.8	40.53	38.97*	-4	
Life, physical, and social science	0.8	0.6*	35.06	31.70*	-10	
Community and social service	1.4	1.5	22.69	21.88	-4	
Legal	0.8	0.8	50.95	47.94	-6	
Education, training, and library	6.2	4.8*	26.21	21.89*	-16	
Arts, design, entertainment, sports, and media	1.4	1.2*	28.07	24.63*	-12	
Healthcare practitioners and technical	5.9	5.5*	38.06	37.36	-2	
Healthcare support	2.9	2.4*	14.65	15.39*	5

Note: See footnotes at end of table.

Table A. Occupational employment and wages by major occupational group, United States and the Phoenix-Mesa-Scottsdale Metropolitan Statistical Area, and measures of statistical significance, May 2016 - Continued

Major occupational group	Percent of total	al employment	Mean hourly wage			
	United States	Phoenix	United States	Phoenix	Percent difference (1)	
Production	6.5	4.5*	17.88	17.51	-2	
Transportation and material moving	6.9	6.2*	17.34	17.65	2	

Footnotes:

One occupational group—office and administrative support—was chosen to illustrate the diversity of data available for any of the 22 major occupational categories. Phoenix-Mesa-Scottsdale had 343,570 jobs in office and administrative support, accounting for 17.8 percent of local area employment, significantly higher than the 15.7-percent share nationally. The average hourly wage for this occupational group locally was \$17.81, compared to the national wage of \$17.91.

Some of the largest detailed occupations within the office and administrative support group included customer service representatives (69,170), general office clerks (36,220), and secretaries and administrative assistants, except legal, medical, and executive (29,630). Among the higher paying jobs were postal service clerks and first-line supervisors of office and administrative support workers, with mean hourly wages of \$25.92 and \$25.91, respectively. At the lower end of the wage scale were hotel, motel, and resort desk clerks (\$11.09) and clerical library assistants (\$12.40). (Detailed occupational data for office and administrative support are presented in table 1; for a complete listing of detailed occupations available go to www.bls.gov/oes/2016/may/oes_38060.htm .)

Location quotients allow us to explore the occupational make-up of a metropolitan area by comparing the composition of jobs in an area relative to the national average. (See table 1.) For example, a location quotient of 2.0 indicates that an occupation accounts for twice the share of employment in the area than it does nationally. In the Phoenix-Mesa-Scottsdale Metropolitan Statistical Area, above-average concentrations of employment were found in some of the occupations within the office and administrative support group. For instance, loan interviewers and clerks were employed at 2.6 times the national rate in Phoenix, and reservation and transportation ticket agents and travel clerks, at 2.4 times the U.S. average. On the other hand, stock clerks and order fillers had a location quotient of 1.0 in Phoenix, indicating that this particular occupation's local and national employment shares were similar.

These statistics are from the Occupational Employment Statistics (OES) survey, a federal-state cooperative program between BLS and State Workforce Agencies, in this case, the Arizona Department of Administration.

Notes on Occupational Employment Statistics Data

A value that is statistically different from another does not necessarily mean that the difference has economic or practical significance. Statistical significance is concerned with the ability to make confident statements about a universe based on a sample. It is entirely possible that a large difference between two values is not significantly different statistically, while a small difference is, since both the size and heterogeneity of the sample affect the relative error of the data being tested.

⁽¹⁾ A positive percent difference measures how much the mean wage in the Phoenix-Mesa-Scottsdale Metropolitan Statistical Area is above the national mean wage, while a negative difference reflects a lower wage.

^{*} The percent share of employment or mean hourly wage for this area is significantly different from the national average of all areas at the 90-percent confidence level.

Technical Note

The Occupational Employment Statistics (OES) survey is a semiannual mail survey measuring occupational employment and wage rates for wage and salary workers in nonfarm establishments in the United States. The OES data available from BLS include cross-industry occupational employment and wage estimates for the nation; over 650 areas, including states and the District of Columbia, metropolitan statistical areas (MSAs), metropolitan divisions, nonmetropolitan areas, and territories; national industry-specific estimates at the NAICS sector, 3-, 4-, and selected 5- and 6-digit industry levels, and national estimates by ownership across all industries and for schools and hospitals. OES data are available at www.bls.gov/oes/tables.htm.

OES estimates are constructed from a sample of about 1.2 million establishments. Each year, two semiannual panels of approximately 200,000 sampled establishments are contacted, one panel in May and the other in November. Responses are obtained by mail, Internet or other electronic means, email, telephone, or personal visit. The May 2016 estimates are based on responses from six semiannual panels collected over a 3-year period: May 2016, November 2015, May 2015, November 2014, May 2014, and November 2013. The overall national response rate for the six panels, based on the 50 states and the District of Columbia, is 73 percent based on establishments and 69 percent based on weighted sampled employment. The unweighted employment of sampled establishments across all six semiannual panels represents approximately 58 percent of total national employment. The sample in the Phoenix-Mesa-Scottsdale Metropolitan Statistical Area included 7,487 establishments with a response rate of 64 percent. For more information about OES concepts and methodology, go to www.bls.gov/news.release/ocwage.tn.htm.

The May 2016 OES estimates are based on the 2010 Standard Occupational Classification (SOC) system and the 2012 North American Industry Classification System (NAICS). Information about the 2010 SOC is available on the BLS website at www.bls.gov/soc and information about the 2012 NAICS is available at www.bls.gov/bls/naics.htm.

Metropolitan area definitions

The substate area data published in this release reflect the standards and definitions established by the U.S. Office of Management and Budget.

The Phoenix-Mesa-Scottsdale, Ariz. Metropolitan Statistical Area includes Maricopa and Pinal Counties.

Additional information

OES data are available on our regional web page at www.bls.gov/regions/west. Answers to frequently asked questions about the OES data are available at www.bls.gov/oes/oes_ques.htm. Detailed technical information about the OES survey is available in our Survey Methods and Reliability Statement on the BLS website at www.bls.gov/oes/current/methods_statement.pdf.

Information in this release will be made available to sensory impaired individuals upon request. Voice phone: (202) 691-5200; Federal Relay Service: (800) 877-8339.

Table 1. Employment and wage data from the Occupational Employment Statistics survey, by occupation, Phoenix-Mesa-Scottsdale Metropolitan Statistical Area, May 2016

Occupation (1)	Emplo	yment	Mean wages		
Occupation (1)	Level (2)	Location quotient (3)	Hourly	Annual (4)	
Office and administrative support occupations	343,570	1.1	\$17.81	\$37,050	
First-line supervisors of office and administrative support workers	28,260	1.4	25.91	53,900	
Switchboard operators, including answering service	940	0.8	13.36	27,790	
Bill and account collectors	7,500	1.8	18.40	38,270	
Billing and posting clerks	9,130	1.4	17.38	36,150	
Bookkeeping, accounting, and auditing clerks	16,650	0.8	18.78	39,060	
Payroll and timekeeping clerks	1,620	0.7	20.32	42,260	
Procurement clerks	1,840	1.9	19.75	41,070	
Tellers	4,180	0.6	13.80	28,700	
Financial clerks, all other	1,240	2.6	19.45	40,450	
Brokerage clerks	1,520	1.8	23.17	48,190	
Court musicinal and lineage states	110	1.2	22.57	46,950	
Court, municipal, and license clerks	2,650	1.5	17.46	36,310	
Credit authorizers, checkers, and clerks	850 69,170	1.6 1.9	18.14 16.15	37,730 33,590	
Customer service representatives Eligibility interviewers, government programs	1,030	0.6	19.16	39,850	
File clerks	2,120	1.2	16.54	34,400	
Hotel, motel, and resort desk clerks	2,870	0.8	11.09	23,070	
Interviewers, except eligibility and loan	800	0.3	17.20	35,780	
Library assistants, clerical	800	0.6	12.40	25,790	
Loan interviewers and clerks	7,890	2.6	20.05	41,710	
New accounts clerks	700	1.2	19.01	39,540	
Order clerks	2,730	1.1	15.89	33,060	
Human resources assistants, except payroll and timekeeping	1,940	1.0	18.40	38,270	
Receptionists and information clerks	12,590	0.9	13.84	28,790	
Reservation and transportation ticket agents and travel clerks	4,820	2.4	18.34	38,150	
Information and record clerks, all other	5,150	2.2	18.41	38,290	
Cargo and freight agents	750	0.6	21.60	44,940	
Couriers and messengers	440	0.4	14.05	29,220	
Police, fire, and ambulance dispatchers	1,090	0.8	22.72	47,260	
Dispatchers, except police, fire, and ambulance	3,400	1.3	18.25	37,970	
Meter readers, utilities	280	0.6	23.38	48,630	
Postal service clerks	570	0.5	25.92	53,910	
Postal service mail carriers	3,710	0.8	24.70	51,380	
Postal service mail sorters, processors, and processing machine operators	1,370	0.9	23.52	48,920	
Production, planning, and expediting clerks	6,110	1.4	22.75	47,320	
Shipping, receiving, and traffic clerks	7,590	0.8	15.88	33,030	
Stock clerks and order fillers Weighers, measurers, checkers, and samplers,	26,720 900	0.9	12.73 13.36	26,490 27,780	
recordkeeping Executive secretaries and executive administrative assistants	8,090	0.9	25.46	52,950	
Legal secretaries	2,230	0.9	22.84	47,500

Insurance claims and policy processing clerks	5,600	1.5	19.04	39,600	
Mail clerks and mail machine operators, except postal	1 440	1 1	12 04	26,700	
service	1,440	1.1	12.84	26,70	

Note: See footnotes at end of table.

Table 1. Employment and wage data from the Occupational Employment Statistics survey, by occupation, Phoenix-Mesa-Scottsdale Metropolitan Statistical Area, May 2016 - Continued

Occupation (1)	Emplo	yment	Mean wages		
	Level (2)	Location quotient (3)	Hourly	Annual (4)	
Office clerks, general	36,220	0.9	16.91	35,170	
Office machine operators, except computer	1,270	1.6	16.08	33,450	
Proofreaders and copy markers	140	0.9	19.66	40,900	
Statistical assistants	160	1.0	17.10	35,580	
Office and administrative support workers, all other	2,160	0.7	20.61	42,860	

Footnotes:

- (1) For a complete listing of all detailed occupations in the Phoenix-Mesa-Scottsdale Metropolitan Statistical Area, see www.bls.gov/oes/current/oes 38060.htm
- (2) Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately. Estimates do not include self-employed workers.
- (3) The location quotient is the ratio of the area concentration of occupational employment to the national average concentration. A location quotient greater than one indicates the occupation has a higher share of employment than average, and a location quotient less than one indicates the occupation is less prevalent in the area than average.
- (4) Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data.
- (5) Estimate not released.
